

Insteon Hub

2245-222
www.insteon.com/hub

Insteon Hub sets the bar for easy-to-use home automation; control and monitor your home from your smartphone or tablet, create schedules and multi-device scenes, configure alerts from sensors and more.

Remote Control

Control lights and appliances; you can do everything from basic control to configuring advanced device settings, all from your smartphone or tablet.

Instant Alerts

Let Insteon be your watchdog. With an array of Insteon sensors throughout your home, you can receive instant alerts via email or push notification the moment something is amiss.

Camera Integration

Add the ultimate peace of mind with Insteon WiFi Cameras and you can pan and tilt to your heart's content from your smartphone or tablet.

Automate with Schedules

Configure a single device to turn on and off at dusk and dawn or create customized groups of lights that turn on and off at various times throughout the day.

Apple Watch

Now you can monitor and control your home from your Apple Watch. Keep an eye on sensors. Look in on your WiFi cameras. Activate a scene with just a tap. Control your ceiling fans, garage door, lights and more.

Enhanced Security

We know that the safety of your home is paramount. That's why we've engineered the new Insteon Hub to use industry standard, secure encrypted communication.

Build Scenes

Quickly and easily create scenes that let you control multiple devices simultaneously. You can customize advanced features like On Level and Ramp Rate, too.

All in the Family

You shouldn't feel left out just because of your choice of mobile platform. That's why we have apps for iOS, Android, Windows and Windows Phone.

No Monthly Fees

That's right. No monthly fees to view, control and monitor your home. Other systems on the market charge hundreds of dollars a year for services that you get for free with the Insteon Hub.

Features

- Control your Insteon devices from a smartphone or tablet
- Quickly build scenes to control multiple devices with a single tap
- Create schedules that trigger on a specific time or use sunrise and sunset
- Control your thermostat
- Monitor Insteon SD and HD WiFi Cameras
- Keep an eye on your home's array of sensors
- Receive email or push notification alerts if something is amiss with a sensor or device
- Insteon App is available for iOS, Android and Windows Phone 8
- Works with Apple Watch

General

Specifications

Insteon Features

- Insteon Powerline Device
- Insteon Wireless Device
- 915.0 MHz (US/Canada)

Electrical

- 2 Watt Power Consumption
- 120-277VAC, 50/60Hz, single phase
- IEC C8 Power Connector

Certification & Safety

- FCC ID Part 15B & 15C
- IC RSS-210
- Intertek ETL
- FCC ID: SBP22452
- Industry Canada ID: 5202A-22452

Size and Weight

- 1.5" H x 3.75" W x 3.75" D
- 38mm H x 95mm W x 95mm D
- 5.2 oz (147g)

Temperature & Humidity

- 32° - 104° F (0° - 40° C) operating temperature
- -4° - 158° F (-20° to 70° C) storage temperature
- 0-90% relative humidity, non-condensing

In the Box

- Insteon Hub
- Power Cable
- Ethernet Cable
- Quick Start Guide

Connectivity

- 10/100 Ethernet Connection Required for Internet Access
- Insteon Hub requires a broadband Internet connection
- Insteon App requires a smartphone or tablet running iOS 7 or later, Android 2.3 or later, Windows Phone 8 or later, Windows 8 or later

Warranty

- 2-year limited warranty
