Getting Started

Everything you need to quickly get up and running.
**Insteon Siren**

### Device Overview

![Diagram of Insteon Siren](image)

- **Status LED**
  - ✭ Armed
  - ✭ Disarmed

- **Alert Speaker**
- **Sound Now**
- **Silence Now**
- **Set Button**

### Buttons

- **Sound Now**
  - Tap to sound the currently selected alert tone.

- **Silence Now**
  - Tap to stop the currently playing alert tone.

- **Set Button**
  - Cycles through the available sound options and arm/disarm mode.
  - Also used for basic linking and local programming.

### Installation

**Plug Siren into an unswitched wall outlet.**

### Protective Film

- Insteon Siren is loud. To reduce the siren volume, leave the protective film over the speaker in place.
Alert Types

Siren features two types of audible alerts. Choose the suitable alert when creating a Scene via Insteon for Hub app or tap-tap linking.

**Siren**
Loud ringing will sound if Siren is armed and triggered by a linked device. The loud ringing will persist for 2 minutes unless stopped by disarming Siren.

**Chime**
Two short beeps will sound if Siren is armed and triggered by a linked device.

**Caution**
Siren is loud. Use hearing protection when testing in close proximity.
Insteon app for iPhone, iPad and iPod touch

Use the Insteon app to configure and control Siren.
When prompted, press and hold the set button on Siren until the device double-beeps

Tap Plug-in Module

You can now manage Siren with the Insteon app.
Configure Audible Alerts
iPhone, iPad and iPod touch

Open the Drawer and tap Create a Scene

Select the devices that you would like to trigger Siren

When selecting Siren, tap Alarm

Tap Next

Ensure that all triggering devices are set as Controller by tapping the Controller, Responder, Both button until it reads Controller

To choose the audible alert for Siren, tap the Chime/Siren button until the desired alert tone is displayed
Configure Audible Alerts

iPhone, iPad and iPod touch

Tap Done to begin creating the scene

When prompted, press and hold the set button on any battery-powered sensors included in the Scene

Tap Yes

✅ Your Siren is now configured for audible alerts.
Configure Arm and Disarm

iPhone, iPad and iPod touch

Open the Drawer and tap Create a Scene

Select Siren and tap Delayed Arm/Disarm

Select the devices that you would like to arm and disarm Siren

Tap Next

To choose between an audible or silent 45 second arming countdown tap Audible/Silent until the desired setting is displayed

Ensure that all arming devices are set as Both by tapping the Controller, Responder, Both button until it reads Both
Configure Arm and Disarm

iPhone, iPad and iPod touch

Tap Done to begin creating the scene

The Insteon app will create your Arm and Disarm scene

Tap Yes to complete the scene building process

Your Insteon device will now arm and disarm Siren.
Insteon app for Android

Use the Insteon app to configure and control Siren.
Add to the Insteon Hub

Android

Launch the Insteon App

Navigate to Settings by tapping Edit Settings from the Settings button

Tap Devices

When prompted, press and hold the set button on Siren until the device double-beeps

Tap the Add button

Tap Plug-In Module

You can now manage Siren with the Insteon app.
Configure Audible Alerts

Android

Navigate to Settings and tap Scenes

Tap Add to create a new Scene

Select the devices that you would like to trigger Siren

Select siren and tap Alarm; when ready, tap Next

Ensure that all triggering devices are set as Controller by tapping the Controller, Responder, Both button until it reads Controller

To choose the audible alert for Siren, tap the Chime/Siren button until the desired alert tone is displayed
Configure Arm and Disarm

Android

Tap Done to begin creating the scene

When prompted, press and hold the set button on any battery-powered sensors included in the scene

Tap Yes to complete the scene building process

Your Siren is now configured for audible alerts.
Configure Arm and Disarm

Android

Navigate to Settings and tap Scenes

Select the devices that you would like to arm and disarm Siren

Select Siren and tap Delayed Arm and Disarm

To choose between an audible or silent 45 second arming countdown tap Audible/Silent until the desired setting is displayed

Tap Add to create a new Scene

Tap Next
Configure Arm and Disarm

Android

Ensure that all arming devices are set as Both by tapping the Controller, Responder, Both button until it reads Both.

Tap Done to begin creating the scene.

The Insteon app will create your Arm and Disarm scene.

Your Insteon device will now arm and disarm Siren.
Local Programming

Use the local programming to link Insteon devices together with the set button.
About Local Programming

Local Programming
The Local Programming Flowchart is a visual representation of the device’s settings. Many device features can be configured using this diagram. Some devices have more options than others but the Local Programming Flowchart presents even the most complicated devices with a straightforward, navigable path.

Using a Central Controller
If using the Insteon Hub or any other central controller, it is strongly advised that you not use Local Programming. Your central controller can manage the device properties and links for you.

Local Programming Features

<table>
<thead>
<tr>
<th>Feature</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Linking Mode</td>
<td>Readies the module for linking to another Insteon device. As linking is directional, the first device placed into linking mode will become the controller in the controller/responder relationship. The second device will become the responder. The device automatically exits linking mode after a link has been made with another Insteon device or four minutes have elapsed without linking.</td>
</tr>
<tr>
<td>Multi-Linking Mode</td>
<td>Readies the module for linking to multiple Insteon devices. The module will remain in linking mode for four minutes or until the module’s set button is tapped. After each successful link, the four minute counter is reset. Use this mode to manually create a scene.</td>
</tr>
<tr>
<td>Unlinking Mode</td>
<td>Allows the removal of links from the Insteon device. The device will automatically exit unlinking mode after a link has been removed from another Insteon device or four minutes have elapsed without linking.</td>
</tr>
<tr>
<td>Multi-Unlinking Mode</td>
<td>Allows the removal of multiple links from the Insteon device. The device will stay in unlinking mode for four minutes or until the device’s set button is tapped. After each successful unlink, the four minute counter is reset.</td>
</tr>
</tbody>
</table>

Navigation
- To move right, press and hold the set button
- To move down, tap the set button

Status LED Indicators:
- Status LED blinks green
- Status LED double-blinks green
- Status LED blinks red
- Status LED double-blinks red
Local Programming Flow Chart
Configure Insteon Siren without Insteon Hub; do not use these instructions if you intend to use Siren with Insteon Hub or other Insteon management software.

Basic Linking
Triggering Siren from an Insteon Device

1. On the Insteon device that you would like to trigger Siren, press and hold the set button until its LED begins blinking.

2. On Siren, tap the set button until you hear the desired alert tone.

3. Press and hold the set button until you hear a double-beep.

Test Siren by triggering your sensor or turning on your Insteon device. Caution: Siren is loud.
Arming and Disarming Siren from an Insteon Device

You can use an Insteon device like a Wall Keypad or Mini Remote to arm and disarm Siren. When using a Wall Keypad, you can also see if Siren is armed or disarmed by looking at the arm and disarm button.

1. On the Insteon device that you would like to use to arm and disarm Siren, tap the desired button.

2. Press and hold the set button until the device’s LED begins blinking.

3. On Siren, tap the set button until the status LED glows red.

4. Press and hold the set button until you hear a double-beep.
Arming and Disarming Siren from an Insteon Device

5. Test Siren by arming from your Insteon device. While arming, Siren will beep for 45 seconds and any linked devices will not trigger the siren or chime.

To cancel arming, tap the button again (or turn controller off).

✓ Your Insteon device will now arm and disarm Siren.
A factory reset will erase all links stored in the device’s database as well as any customized properties.
Factory Reset

1. Unplug Siren from its power outlet

2. Simultaneously press and hold the set button while reconnecting Siren to power

3. Continue holding the set button until Siren stops beeping

4. When the reset is complete, Siren will double-beep

✔ Your Siren has been restored to factory settings.
Appendix

Everything else you might need to know about your Insteon product.

Certifications and Warnings

Read and understand these instructions before installing and retain them for future reference.

This product is not designed or approved for use on powerlines other than 120VAC, 60Hz, single phase. Attempting to use this product on unapproved powerlines may have hazardous consequences.

- Use only indoors or in outdoor rated box
- This product may feel warm during operation. The amount of heat generated is within approved limits and poses no hazards. To minimize heat buildup, ensure the area surrounding this product is as clear of clutter as possible.
- Each Insteon product is assigned a unique Insteon ID, which is printed on the product’s label.

This device complies with FCC Rules and Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d’Industrie Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes: (1) l’appareil ne doit pas produire de brouillage, et (2) l’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.
Product Warranty

Limited Warranty

Seller warrants to the original consumer purchaser of this product that, for a period of two years from the date of purchase, this product will be free from defects in material and workmanship and will perform in substantial conformity to the description of the product in this Owner's Manual. This warranty shall not apply to defects or errors caused by misuse or neglect. If the product is found to be defective in material or workmanship, or if the product does not perform as warranted above during the warranty period, Seller will either repair it, replace it, or refund the purchase price, at its option, upon receipt of the product at the address below, postage prepaid, with proof of the date of purchase and an explanation of the defect or error. The repair, replacement, or refund that is provided for above shall be the full extent of Seller's liability with respect to this product. For repair or replacement during the warranty period, call 866-243-8022 with the Model # and Revision # of the device to receive an RMA# and send the product, along with all other required materials to:

Insteon
ATTN: Receiving
16542 Millikan Ave.
Irvine, CA 92606-5027

Limitations

The above warranty is in lieu of and Seller disclaims all other warranties, whether oral or written, express or implied, including any warranty of merchantability or fitness for a particular purpose. Any implied warranty, including any warranty of merchantability or fitness for a particular purpose, which may not be disclaimed or supplanted as provided above shall be limited to the two-year of the express warranty above. No other representation or claim of any nature by any person shall be binding upon Seller or modify the terms of the above warranty and disclaimer.

Home automation devices have the risk of failure to operate, incorrect operation, or electrical or mechanical tampering. For optimal use, manually verify the device state. Any home automation device should be viewed as a convenience, but not as a sole method for controlling your home.

In no event shall Seller be liable for special, incidental, consequential, or other damages resulting from possession or use of this device, including without limitation damage to property and, to the extent permitted by law, personal injury, even if Seller knew or should have known of the possibility of such damages. Some states do not allow limitations on how long an implied warranty lasts and/or the exclusion or limitation of damages, in which case the above limitations and/or exclusions may not apply to you. You may also have other legal rights that may vary from state to state.
