

## Insteon On/Off Outlet

2663-222

[www.insteon.com/onoffoutlet](http://www.insteon.com/onoffoutlet)

Featuring integrated control of both the upper and lower outlets, Insteon On/Off Outlet is two products in one, giving you the flexibility to control two different devices from a single remote control outlet.

There's never been a more flexible outlet when it comes to remote control. Control directly at the outlet, use any Insteon device or even your smartphone or tablet with the Insteon Hub.

### Invisible Control

Say goodbye to bulky remote control modules - with On/Off Outlet, everything you need for remote control is built-in and completely invisible for a clean, elegant look.

### 2 Devices in 1

With control over both outlets, you no longer need two Insteon devices to control two lamps or appliances; both the upper and lower outlet can be independently - and remotely - controlled.

### Tamper Resistant

Automation shouldn't place your family in jeopardy. That's why On/Off Outlet features tamper resistant receptacles, preventing your young ones from possible accidental electric shock.

### Limitless Control Options

There's never been a more flexible outlet when it comes to remote control. Control directly at the outlet, use any Insteon device or even your smartphone with the Insteon Hub.

## Features

- Clean in-wall design blends in anywhere in your home
- No bulky modules to plug-in for remote control
- Upper and lower outlet can be independently controlled
- Control up to 15A of appliances between the two outlets
- Tamper-resistant receptacles help prevent electric shock
- Available in multiple colors
- Set schedules, configure scenes and remotely control On/Off Outlet from your smartphone with the Insteon Hub
