# **Getting Started** Everything you need to quickly get up and running.

### About Insteon+

### Insteon+ Features

We wanted to add some fun to the daily chore of managing your home's lights and devices; so why not make Insteon+ more fun to use than your light switches? With brand new controls and a greatly simplified user interface, Insteon+ sets the new standard for home control apps.

Easily add devices with just a tap

Create and manage rooms, zones and multiple houses

Schedule scenes and set repeats for day, week or specific dates

A comprehensive dashboard view for quick visibility and control

Quickly create powerful scenes that adjust multiple devices

### **Apple HomeKit**

Insteon+ is a HomeKit aggregator app designed to work with a wide array of HomeKit-enabled devices. You do not need an Insteon Hub Pro to use Insteon+ but Hub Pro is required to use Insteon devices with Insteon+ and HomeKit.

HomeKit delivers a common protocol, secure pairing and the ability to easily control individual or groups of products throughout the house.

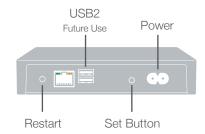

HomeKit currently supports on/off devices, dimmable devices, multi-colored lights, ceiling fans, garage doors, door locks and thermostats.

Manufactures can choose to create custom devices that fall outside of these categories but using them with Siri and apps other than the manufacturer's may result in limited functionality.

### Insteon Hub Pro

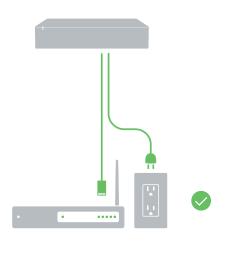

### **Device Overview**

### Installation

Connect your Hub to the internet and a power outlet using the cables provided. Avoid switched outlets or filtered power strips.

### iCloud Keychain

To store your home's HomeKit configuration securely, Insteon+requires a properly configured iCloud Keychain. If your device's iCloud Keychain is disabled or pending verification, Insteon+ will be unable to complete basic tasks like adding a device.

On your iPhone, iPad or iPod touch, navigate to Settings.

Tap iCloud.

Scroll down to Keychain. The configuration status of your iCloud Keychain will be listed as either On, Off or Pending.

If iCloud Keychain is On, no further action is required. If your iCloud Keychain is Off or Pending, complete activation.

### **Enable iCloud Keychain**

If your iCloud Keychain is Off, tap Keychain.

Tap the switch to enable iCloud Keychain.

After several moments, you will be prompted to either create a security code, approve with a security code or approve from another iPhone, iPad, iPod touch or Mac that is currently configured with iCloud Keychain.

### Create an iCloud Keychain

If you have never enabled iCloud Keychain before, you can configure it for the first time by providing a 4-digit security code and a phone number.

Tap the switch to enable iCloud Keychain.

Create a 4-digit security code.

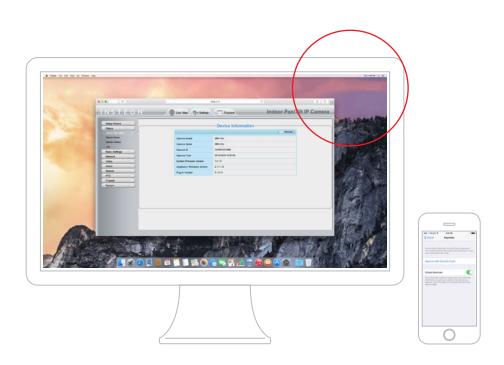

Enter a valid phone number that can receive SMS messages. This number is used by Apple to send verification codes when you activate iCloud Keychain on additional devices.

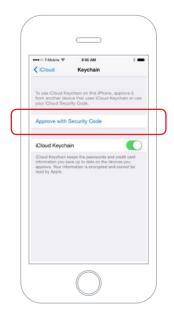

### Approve iCloud Keychain from Another Device

If you have access to another Apple device, you should receive a notification requesting iCloud Keychain approval.

Follow the on-screen steps on that device to complete iCloud Keychain approval.

### Approve iCloud Keychain a Security Code

Tap Approve with Security Code.

When prompted, enter your Apple ID password.

Enter the 4-digit iCloud Security Code that you created when you originally configured iCloud Keychain.

Check your phone's messages for a 6-digit verification code and enter it when prompted.

After several moments, iCloud Keychain should be enabled. Tap Back and confirm that iCloud Keychain is On.

### **Setup Insteon Hub**

Download Insteon+ from the App Store on your iPhone or iPod touch.

Allow Insteon+ access to your HomeKit accessory data.

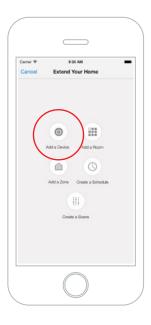

Create an account or sign in if you already have an Insteon account.

Navigate to your home by tapping Home.

Tap the Add button in the upper right corner.

Tap Add a Device

### **Setup Insteon Hub**

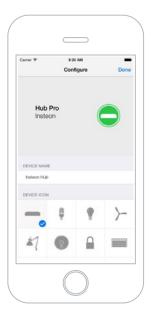

Tap Hub Pro at the bottom of the screen. It may take several minutes after connecting Insteon Hub to power before it appears.

Enter the 8-digit Accessory Setup Code found on the bottom of Insteon Hub.

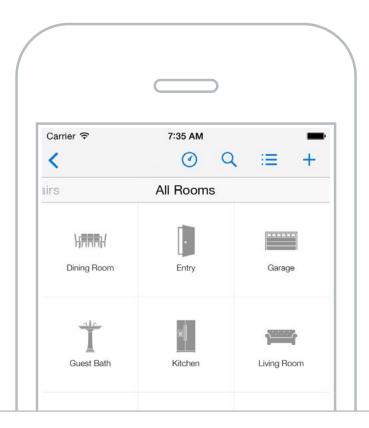

Finish up by giving your Hub a name and picking an icon.

### Insteon+

Use Insteon+ to configure and control your Insteon Hub. Everything from adding a device to adding guests is handled through the app.

### Overview

### Dashboard

A quick overview of your home as well as convenient access to favorite devices and scenes.

### Search

Find anything in your home, quickly and efficiently.

### Configure

Edit the devices, rooms, zones, scenes and schedules in your home.

### Add

Add new devices, rooms, zones, scenes and schedules to your home.

### Zones

Create zones to conveniently group rooms throughout your home. Move between zones by swiping left and right.

### Rooms

Use rooms to manage a large number of devices. Move between rooms by swiping left and right.

### **Devices**

Control devices by tapping a device's icon.

### **Dashboard**

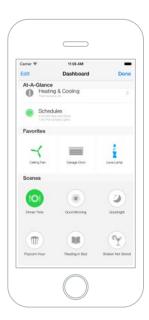

Open Dashboard by tapping the Dashboard button.

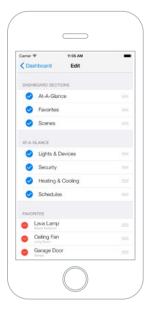

Dashboard gives you a quick overview of your home as well as convenient access to favorite devices and scenes.

Quickly control a device by tapping its icon in Favorites.

All of your created scenes live in Dashboard. Tap their icon to activate the scene.

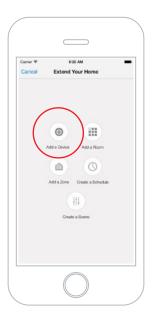

Enable and disable sections, rearrange their order and pick favorites by tapping Edit.

### Add an Insteon Device

Tap the Add button in the upper right corner

Tap Add a Device

Tap Add Insteon

Enter the 6-digit Insteon ID found on your new Insteon device.

Find your Insteon ID

Finish up by giving your new Insteon device a name, a Siri name, icon and assigning it to a room. To help Siri understand your home, the Device Name and Siri Name cannot match.

### **Set Button**

Insteon devices can also be added using the set button. Learn more at insteon.com/hub-homekit-setup

### **Compatible Devices**

For a list of compatible devices, visit insteon.com/hub-homekit-setup

### Add a HomeKit Device

Tap the Add button in the upper right corner.

Tap Add a Device.

Ensure your HomeKit accessory is powered on. Tap your new HomeKit accessory after it appears at the bottom of the screen.

Enter the 8-digit Accessory Setup Code that came with your new HomeKit device.

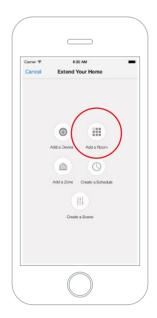

Finish up by giving your new Insteon device a name, a Siri name, icon and assigning it to a room. To help Siri understand your home, the Device Name and Siri Name cannot match.

### Add a Room

Tap the Add button in the upper right corner.

Tap Add a Room.

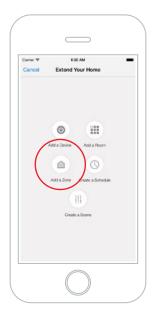

Give your room a name, pick an icon and chose any unassigned devices that you would like to add.

### Add a Zone

By grouping your rooms into zones, you can quickly control devices in multiple rooms using Siri. Only rooms can be placed in a zone but a room can exist in multiple zones.

Tap the Add button in the upper right corner.

Tap Add a Zone.

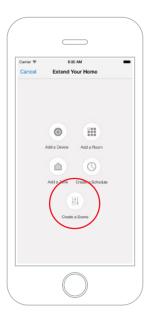

Give your zone a name, pick an icon and chose any rooms that you would like to add to this zone.

### Create a Scene

Tap the Add button in the upper right corner.

Tap Create a Scene.

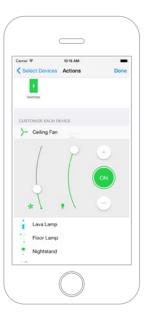

Give your scene a name and pick an icon.

Select the devices that you would like to include in your scene.

Chose Quick Scene or Custom Scene and then tap a device type to customize how similar devices will behave when the scene is activated.

In a Custom Scene, you can tap each individual device as well for a truly unique scene.

### **Create a Schedule**

With a schedule, any scene can be set to run at a specified time, repeating every day, on a specific day of the week or on a specific date of the month.

Only scenes can be scheduled. To schedule an individual device, create a scene with that device.

Weekly and monthly schedules only allow for a single day or date per schedule. To schedule multiple instances of an event, create multiple schedules, one for each desired day.

Multiple scenes can be selected when creating a schedule.

### Create a Schedule

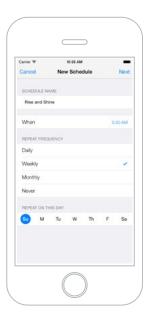

Tap the Add button in the upper right corner.

Tap Create a Schedule.

Give your schedule a name, pick a time and pick how often the schedule repeats.

Weekly schedules will repeat every week on a specified day.

Monthly schedules will repeat every month on a specified date.

Select the scenes that you would like to include in your schedule.

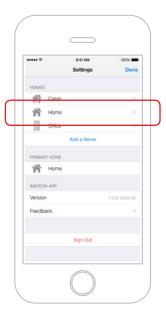

### Add a Guest User

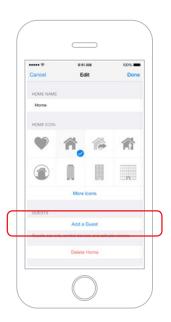

Tap Back until you see a list of homes.

Tap Settings.

Tap the home for which you would like to share access.

Tap Add a Guest

Enter your guest's Apple ID and tap Add User.

On the guest user's iPhone, iPad or iPod touch, tap Accept. To control devices, your guest will also need to download Insteon+ or another HomeKit-compatible app from the App Store.

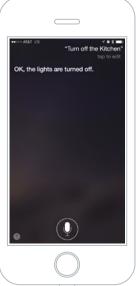

Press and hold the home button on your iPhone, iPad or iPod touch.

Ask Siri to control devices, rooms, zones or scenes. Siri can control most aspects of your devices including on/off, brightness, fan speed, and temperature.

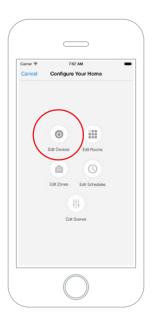

While connected to power, you can

### Customize a Device's Siri Name

Tap the Configure button to open the Configure your Home sheet.

Tap Edit Devices.

Select the desired device from the list.

Enter a Siri name. To help Siri understand your home, the Device Name and Siri Name cannot match and must be unique in your home.

When you ask Siri to control a specific device, use the device's Siri Name.

### **Composing Siri Commands**

When controlling your home, Siri expects a relatively consistent syntax for commands. The order of the commands is flexible and it is strongly encouraged that you use the full hierarchy of zones and rooms.

### **Remote Access**

When you are away from home, Insteon+ and Insteon Hub require an Apple TV (3rd generation or later) for remote access. Without a properly configured Apple TV, all of your devices will appear in Insteon+ but their function will be disabled.

There is no need to configure port forwarding for Insteon Hub Pro or other HomeKit devices.

### **Remote Access**

On your iPhone, iPad or iPod touch, navigate to Settings.

Tap iCloud.

The iCloud account listed is the account Insteon+ is using for your HomeKit configuration.

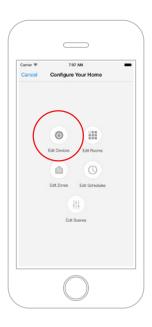

On your Apple TV, navigate to Settings > iCloud. Ensure that you are signed in using the same iCloud account as your iPhone, iPad or iPod touch.

### **Delete a Device**

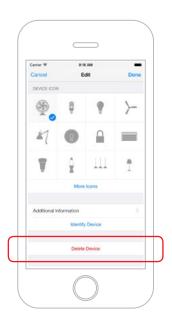

Tap the Configure button to open the Configure your Home sheet.

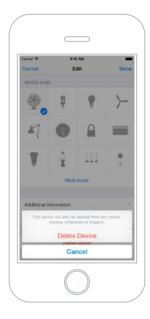

Tap Edit Devices.

Select the device that you want to delete from the list

At the bottom of the Edit screen, tap Delete Device.

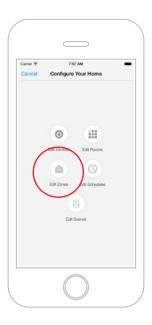

Confirm that you want to delete the device.
This will also remove the device from any rooms, scenes, schedules or triggers in your home and cannot be undone.

Removing Insteon Hub Pro will also remove any Insteon devices.

### **Delete a Room**

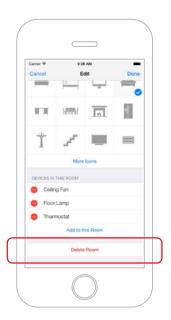

Tap the Configure button to open the Configure your Home sheet.

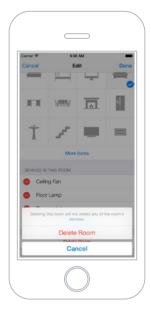

Tap Edit Rooms.

Select the room that you want to delete from the list.

At the bottom of the Edit screen, tap Delete Room.

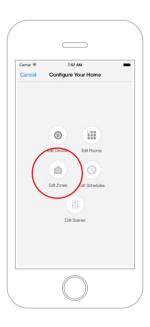

Confirm that you want to delete the room. This will not delete any of the devices contained within the room.

### Delete a Zone

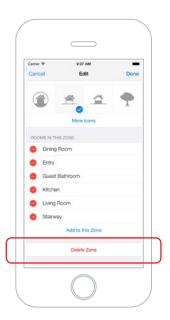

Tap the Configure button to open the Configure your Home sheet.

Tap Edit Zones.

Select the zone that you want to delete from the list.

At the bottom of the Edit screen, tap Delete Zone.

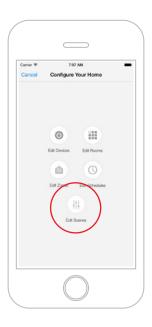

Confirm that you want to delete the zone. This will not delete any of the rooms or devices contained within the zone.

### Delete a Scene

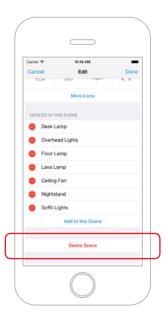

Tap the Configure button to open the Configure your Home sheet.

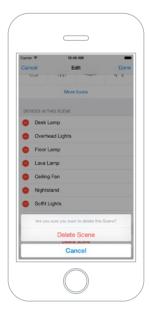

Tap Edit Scenes.

Select the scene that you want to delete from the list.

At the bottom of the Edit screen, tap Delete Scene.

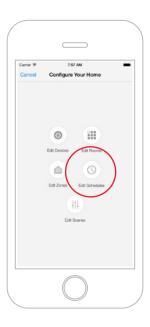

Confirm that you want to delete the scene. This will not delete any devices contained within the scene or schedules containing this scene.

### Delete a Schedule

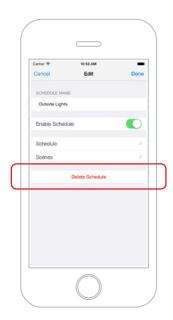

Tap the Configure button to open the Configure your Home sheet.

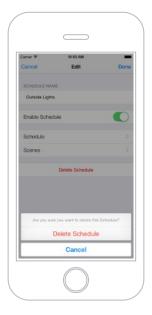

Tap Edit Schedules.

Select the schedule that you want to delete from the list.

At the bottom of the Edit screen, tap Delete Schedule.

Confirm that you want to delete the schedule. This will not delete any scenes contained within the schedule.

### Remove a Guest User

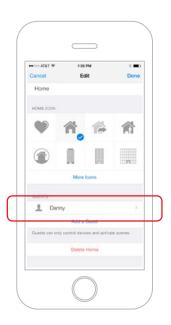

Tap Back until you see a list of homes.

Tap Settings.

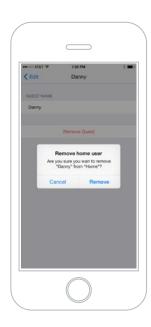

Tap the home for which you would like to share access.

Tap the guest you would like to remove.

Tap Remove Guest.

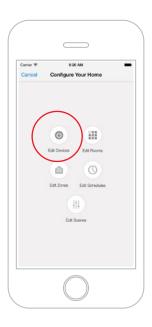

Confirm that you want to remove the guest.

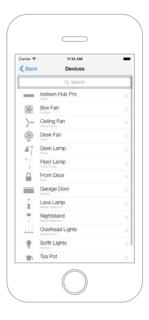

### **Update Firmware**

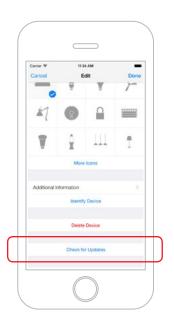

Tap the Configure button to open the Configure your Home sheet.

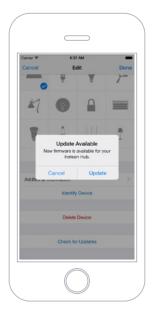

Tap Edit Devices.

Select your Insteon Hub from the list.

At the bottom of the Edit screen, tap Check for Updates.

If an update is available, tap Update to download and install new firmware.

Do not disconnect Insteon Hub from the internet or power during the update. Most updates take only a few minutes.

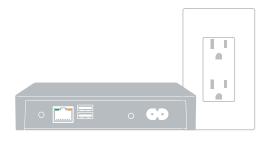

### **Hardware Reset**

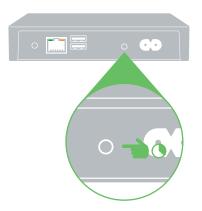

A factory reset will erase all links stored in the device's database as well as any customized properties. It will also reset the HomeKit pairing and will allow Insteon Hub to be added to a different HomeKit house.

### **Factory Reset**

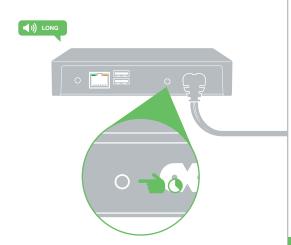

While holding the set button, reconnect Insteon Hub to power.

Continue holding the set button until Insteon Hub stops beeping. Release the set button and your Hub will double beep. After three minutes, your Hub will double beep again.

Your Insteon Hub has been restored to factory settings.

## **Appendix** Everything else you might need to know about your Insteon product.

### **Certifications and Warnings**

Read and understand these instructions before installing and retain them for future reference.

This product is not designed or approved for use on powerlines other than 120-277VAC, 50Hz or 60Hz, single phase. Attempting to use this product on unapproved powerlines may have hazardous consequences.

- Use only indoors or in outdoor rated box
- This product may feel warm during operation. The amount of heat generated is within approved limits and
  poses no hazards. To minimize heat buildup, ensure the area surrounding this product is as clear of clutter
  as possible.
- Each Insteon product is assigned a unique Insteon I.D., which is printed on the product's label.
- Changes or modifications to the hardware not expressly approved by Insteon may void the user's authority
  to operate the equipment in a licensed manor.
- For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible.

This device complies with FCC Rules and Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le present appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorise aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radiolectrique subi, mme si le brouillage est susceptible d'en compromettre le fonctionnement.

### **Declaration of Conformity**

Hereby, Insteon declares that this device is in compliance with the essential requirements and other relevant provisions of the following Directives:

- 1) Low Voltage Equipment Directive 2006/95/EC
- 2) Electromagnetic Compatibility Directive 2004/108/EC
- 3) Hazardous Substance Directive 2005/95/EC

Technical data and copies of the original Declaration of Conformity are available and can be obtained from Insteon; 16542 Millikan Ave, Irvine, CA, USA.

User Information for Consumer Products Covered by EU Directive 2002/96/EC on Waste Electric and Electronic Equipment (WEEE)

This document contains important information for users with regards to the proper disposal and recycling of Insteon products. Consumers are required to comply with this notice for all electronic products bearing the following symbol:

Environmental Information for Customers in the European Union

European Directive 2002/96/EC requires that the equipment bearing this symbol on the product and/or its packaging must not be disposed of with unsorted municipal waste. The symbol indicates that this product should be disposed of separately from regular household waste streams.

It is your responsibility to dispose of this and other electric and electronic equipment via designated collection facilities appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health.

For more detailed information about the disposal of your old equipment, please contact your local authorities, waste disposal service, or the shop where you purchased the product.

DECLARATION OF CONFORMITY TO R&TTE DIRECTIVE 1999/5/EC for the European Community, Switzerland, Norway, Iceland and Liechtenstein Product category: general consumer (category 3).

English: This equipment is in compliance with the essential requirements and other relevant provisions of the European R&TTE Directive 1999/5/EC

Deutsch [German]: Dieses Gerät entspricht den grundlegenden Anforderungen und den weiteren entsprechenden Vorgaben der Richtlinie 1999/5/EU.

Nederlands [Dutch]: Dit apparaat voldoet aan de essentiele eisen en andere van toepassing zijnde bepalingen van de Richtlijn 1999/5/EC.

Svenska [Swedish]: Denna utrustning står I överensstämmelse med de väsentliga egenskapskrav och övriga relevanta bestämmelser som framgår av direktiv 1999/5/EG.

Français [French]: Cet appareil est conforme aux exigences essentielles et aux autres dispositions pertinentes de la Directive 1999/5/EC

Español [Spanish]: Este equipo cumple con los requisitos esenciales así como con otras disposiciones de la Directiva 1999/5/CE.

Português [Portuguese]: Este equipamento está em conformidade com os requisitos essenciais e outras provisões relevantes da Directiva 1999/5/EC. Italiano [Italian]: Questo apparato é conforme ai requisiti essenziali ed agli altri principi sanciti dalla Directiva 1999/5/CE.

### **Declaration of Conformity**

Norsk [Norwegian]: Dette utstyret er i samsvar med de grunnleggende krav og andre relevante bestemmelser i EU-direktiv 1999/5/EF.

Suomi [Finnish]:Tämä laite tÿttää direktiivin 1999/5/EY olennaiset vaatimukset ja on siinä asetettujen muiden laitetta koskevien määräysten mukainen. Dansk [Danish]: Dette udstyr er i overensstemmelse med de væsentlige krav og andre relevante bestemmelser i Direktiv 1999/5/EF.

Polski [Polish]: Urządzenie jest zgodne z ogólnymi wymaganiami oraz szczególnymi warunkami okreslonymi Dyrektywą UE: 1999/5/EC

In 2002, the European Union introduced the Directive on Waste Electrical and Electronic Equipment (WEEE). The main aim of the Directive is to ensure that WEEE is collected and treated separately. WEEE may contain hazardous substances that should not end-up in the (human) environment because it can have adverse effects on it. Furthermore, WEEE is a vast source of raw materials. With the ever-rising worldwide demand for new equipment and the ever-decreasing volume of raw materials in nature, letting this potential source of such materials go to waste is unacceptable. If equipment is collected separately, the equipment can be recycled and up to 85 to 90% of the equipment can be reused as new material, saving the use of virgin raw materials and energy of producing these. Separate collection and treatment of WEEE will thus decrease CO2 emissions as well. For the above reasons, Insteon expects end-users to dispose of the material in an environmentally friendly way through separate collection and treatment. Electrical and Electronic Equipment is labeled with the following 'crossed out wheeled bin' symbol indicating that the equipment should be disposed of, by the end-user, separate from other types of waste. End-users should contact their dealer/distributor or our company on disposal, collection and recycling options in their country.

### **Product Warranty**

### **Limited Warranty**

Seller warrants to the original consumer purchaser of this product that, for a period of two years from the date of purchase, this product will be free from defects in material and workmanship and will perform in substantial conformity to the description of the product in this Owner's Manual. This warranty shall not apply to defects or errors caused by misuse or neglect. If the product is found to be defective in material or workmanship, or if the product does not perform as warranted above during the warranty period, Seller will either repair it, replace it, or refund the purchase price, at its option, upon receipt of the product at the address below, postage prepaid, with proof of the date of purchase and an explanation of the defect or error. The repair, replacement, or refund that is provided for above shall be the full extent of Seller's liability with respect to this product. For repair or replacement during the warranty period, call 866-243-8022 with the Model # and Revision # of the device to receive an RMA# and send the product, along with all other required materials to:

Insteon ATTN: Receiving 16542 Millikan Ave. Irvine, CA 92606-5027

### Limitations

The above warranty is in lieu of and Seller disclaims all other warranties, whether oral or written, express or implied, including any warranty or merchantability or fitness for a particular purpose. Any implied warranty, including any warranty of merchantability or fitness for a particular purpose, which may not be disclaimed or supplanted as provided above shall be limited to the two-year of the express warranty above. No other representation or claim of any nature by any person shall be binding upon Seller or modify the terms of the above warranty and disclaimer.

Home automation devices have the risk of failure to operate, incorrect operation, or electrical or mechanical tampering. For optimal use, manually verify the device state. Any home automation device should be viewed as a convenience, but not as a sole method for controlling your home.

In no event shall Seller be liable for special, incidental, consequential, or other damages resulting from possession or use of this device, including without limitation damage to property and, to the extent permitted by law, personal injury, even if Seller knew or should have known of the possibility of such damages. Some states do not allow limitations on how long an implied warranty lasts and/or the exclusion or limitation of damages, in which case the above limitations and/or exclusions may not apply to you. You may also have other legal rights that may vary from state to state.
